Original Scania Emblem with LED edge, IP65 - Frosted, Yellow - restsalg 482

The + and - on the wires have been swapped.

Note that this product is a clearance sale. We only have 1 products(s) in stock.

Waterproof lightbase with original Scania Emblem. Depending on the chosen model, the base can be made of clear or specially frosted white acrylic illuminated by LEDs.

It comes with a 3-meter cable, secured with strain relief. The light strip matches the color in the light base to the Scania sign.

Frosted Base

The frosted base gives the emblem a beautiful neon outline, visible both day and night.
