Fristom LED work light in plastic, ADR-approved 12V-36V - restsalg 426

Only 1 pieces left in stock. Has been installed by a customer who has regretted it. Cord cut shorter. The lamp has been tested and works.

Note that this product is a clearance sale. We only have 1 products(s) in stock.

The known LED work light made entirely out of plastic and galvanized mounting brackets. Nice lamp with replaceable frame. The lamp is ADR-approved.

The 9 Osram LEDs in the lamp is equivalent to 50-70W halogen, with a total output of 1800 lumen.

The frame around the lense can be replaced by unscrewing the four screws. The frame is available as black (standard), white, gray, red, yellow and green.

The lamp is easily mounted with the included bracket, bolts and washers. The lamp is rated IP68, meaning it can be submerged.

Wire: 150 cm
