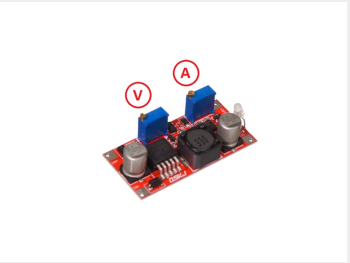
Voltage and current-regulator - 7-35V to 1.25-30V and 0-2A

Compact regulator that can step down the voltage from 35V down to 1.5V, and limit the current from 2A and down.



Compact regulator that can step down the voltage from 35V down to 1.5V, and limit the current from 2A and down.

Specifications

Input, voltage	7V - 35V
Output, voltage	1.25V - 30V
Output, max current	0-2A adjustable
Consumption (no load)	10mA
Effeciency	Max 90% (at high voltage)

Voltage and current-regulator - 7-35V to 1.25-30V and 0-2A

SKU 609834

Dimensions: 12 x 50 x 24mm
