

Strands Siberia DR LED light-bar, E-approved

Strands double-rowed LED light-bar with dual colour position-light in the middle.
E-approved for road use.

E-approved LED bars by Strands with dual-colour position-light in the middle making it a stylish and modern look. The LED bars are available as a 12" version with 95W / 8.000 theoretical lumen and a 22" version with 194W / 15.000 theoretical lumen.

The dual-color position-light gives you the possibility to change between white and yellow positions-light as you feel like it so that it fits your vehicle.

The combo-light takes the best of a "spot-" and "flood" light bar. On each side, there are flood lenses, and in the center, spot lenses. This way you have a good combination of the broad light spreading from the sides and the focused light in the center.

The lens glass is produced in polycarbonate and the lamp housing is made of powder-coated aluminum to achieve a sleek design and good cooling for the LEDs.

There are brackets included for mounting and also a pre-mounted 4-pin DT plug, which makes the installation much easier.

- Black: Minus / -
- Red: High-beam
- White: White position-light
- Yellow: Yellow position-light

E-approvements: ECE R112, R7, R10, CE
