

W5W Super White MTEC 12V, 2 pack

W5W bulb for 12V, that gives a white/blue xenon looking light. Perfect for use with other MTEC Super White bulbs.

W5W bulb for 12V, that gives a white/blue xenon looking light. Perfect for use with other MTEC Super White bulbs with similar light.

The glass of the bulb is blue, so you avoid cheap coatings that fall off after a while - The bulb simply cannot lose its color.

As the bulb is a normal incandescent bulb, it will use 5W, which also means you avoid errors from the bulb control / canbus.

These bulbs are, unfortunately, not E-approved. You should expect normal incandescent bulb life time.

Reference: W3W W5W, 501, 194, T10, 12256, 12961, 12V
