---

5 pcs. XLaZer diodes ready for indoor mounting, a 0.5 m cord and mounting frames.
Is typically used to power lighting in the cabin and in the trunk. The diodes light up vigorously with a relatively concentrated light scattering, so they're good for spot lighting or lighting in the longer distance.

The diodes can also be attenuated in the brightness via our 12Vdc dimmers.

Cable length: 0.5 metres
Mounting hole of 3 mm must be 4.5 ~ 5,0 mm.

Mounting hole of 5 mm must be 6,5 mm.
It can also be attached via cable stripes and stripe-anchors.
