

230V Track Light - A Wire Suspender

It is used for hanging profiles in free air down from the ceiling. It is very easy to mount. There are 3 metres wires that can be shortened.

Used for hanging profiles in free air down from the ceiling.

The wire suspender is very easy to mount with the included accessories. The short thread is screwed on to the ceiling, where after the holder is screwed on to this. The bracket is slid in to the profile, and secured with the small screws.

There are 3 meter wires on the wire-suspender, that can easily be shortened.
