

230V to 24V DC LED transformer, IP67

12V transformers in waterproof enclosures. Models from 50W to 250W. A solid construction with potted electronics.

12V LED transformers in waterproof and solid enclosures, where the electronics are potted, which secures them against moisture and water.

The transformers are perfect for LED lights, for example -12V stripes, 12V rope lights and other 12V projects.

20cm wire is preinstalled on the Input and Output

It has a built-in protection against:

- Shortcuts
- Overconsumption
- Overheating
