

A small stainless switch - 48V, 2A

A nice small waterproof switch in a stainless steel that fits in to a 12mm hole.

A nice small waterproof switch in a stainless steel that fits in to a 12mm hole. The flat head gives you a even surface and the slightly lifted button makes it easy to activate the switch.

Are you not sure, what the difference is between on/off and push on, we recommend you to watch our demonstration video. You can find the video under the pictures on your right side.

A gasket and a nut are included for mounting of the switch.

There is 15mm threading-length.
