A powerful LED marker lamp that is available with red, yellow and white glass and light.

A powerful LED marker lamp that is available with red, yellow and white glass and light.

Buy online at www.matronics.eu/24605230

The lamp is mounted with screws or bolts through the 4mm holes.

A plastic base ensures that the lamp holds firmly on the mounting surface.

The orange lights have 2 models - one with a 5m cable and one with 0.5m.

All models have 5 LEDs and all models are e-marked.
