

# Long LED Stalker Lamp

A sturdy long stalker lamp with a flexible arm, designer for hard use on work vehicles. ECE-approved and a 5-years warranty, 12V and 24V.

A sturdy long stalker lamp with a flexible arm, intended for marking with red and white position light and models with a built-in yellow sidemarking. Note that you have to choose left and/or right model when ordering.

They are built very sturdy, as they are designed for hard use on work vehicles. They are completely waterproof and can be immersed in water (IP67). The long flexible arm makes them very resistant against impacts and vibrations.

As they are multi-volt, the lamps can be connected to both 12V and 24V.

They are ECE-approved and EMC approved and have a 5-years warranty.
