# Round LED high-beams with dual position-light, Eapproved 9-36V

E-approved round LED lighbeams with dual position-light that allows you to switch between white and yellow position-light

LED high-beams with dual positon-light, that sits in the top of the lamp without any visible LED's. That gives you the possibility to change between white and yellow positions-light as you feel like it so that it fits your vehicle.

The high-beams are available as 7" (60W) and 9" (120W). These highbeams are ECE-approved so that you can use them on public roads. They can advantageously replace the classic halogen long-beams.

In regards to the light diagram, it shows 1 lux at 380m (7") and 425m (9") respectively. You will, therefore, get more light than the diagram shows and be able to see the reflections in the cones in the side of the road further out.

The lens glass is produced in polycarbonate and the lamp housing is made of powder-coated aluminum to achieve a sleek design and good cooling for the LEDs.

The supplied brackets are manufactured in stainless steel. The lightbars also come with a suitable DT Deutsch-plug, which makes the installation much easier.
