

54W LED Work light, Flood 10-30V

Very bright work light with 9 powerful Osram LEDs.

Extremely powerful LED work lamp that with its 9 x 6W Osram LEDs gives a total of real 5200 lumens.

The LED work lamp is available in a FLOOD version, which means that it has a good and broad diffusion of light with its 90 degrees, and is therefore ideal for work lights close by. The housing is made of cast solid aluminum, with large cooling coils for heat dissipation.

The LED work lamp has a built-in thermo-function that throttles the brightness if the components should overheat - maximal down to 2780 lumen. In that way, you get the best possible outcome of high light output and durability.

Includes brackets and bolts and nuts for attaching it.

IP67 / IP69K
