

Poppy holder - Scania Next Generation S/R-series

Holder for 2 bottles of Poppy airfresheners for Scania Next Generation S/R-series.

Keep your Poppy airfresheners in place with this black power-coated metal holder, fitting Scania Next Generation S/R-series models. The holder can fit 2 Poppy Grace Mate airfresheners - with or without light.

The holder is placed in the middle of your dashboard up against the windshield and will therefore not block your view. The holder is not approved in any way, so that judgment will be up to law enforcement in the end.

If you have a Scania with a smart dash, the bracket can still be used. However, it must be mounted a little further back.

The holder is very easy to mount and there is a set of screws included for mounting
