Mini LED melon lamp 24V

Mini LED melon lamp that is perfect for interior light. Available as single-colour, dual-colour, and RGB.

Mini LED melon lamps are perfect for interior lighting - especially in trucks. The lamps are available in various single-color colors, dual-color with fx xenon white/red, and as RGB.

The lamps have a 1 meter cable mounted so that you easily can mount them behind the upholstery.

Enkeltfarvet / Single color

One color for example, red. With colored glass, colored in the color of the light, or clear glass. The laps have a high/low function. The lamps are dimmable, which means you can dimm them with a dimmer or a Mi-light controller.

- White: - / Minus
- Red: + / Plus, High
- Black: + / Plus, Low

Dual color

Switch between 2 colors - for example, white/red. There is one minus/- and two plus/+ cables. You can not have both colors on at the same time, so you need to use a toggle switch to change between colors. The lamps are dimmable and can be controlled by a dimmer or Mi-light controller.

- White: - / Minus
- Yellow: + / Plus for white light
- Red: +/ Plus for red light

RGB

Switch between various colors. The lamps can be connected as they are, but we recommend you use a Mi-light RGB controller, which you can find under related products.

- Hvid: Common + / plus
- Red: - / Minus for red light
- Black: - / Minus for green light
- Yellow: - / Minus for blue light
