

Tec7 Super Glue 10ml tube

Very strong glue by Tec7 for use on many different surfaces

Very strong super glue, that can be used on many different surfaces, such as (except for P.E and P.P), rubbers, glass, plexiglass, keramik, wood, leather, metal etc.

Super is a cyanoacrylate-based quick adhesive. It can resist temperatures of -30°C up to + 100°C.

Make sure to only use it on clean, dry, grease- and dust-free surfaces. The thinner the adhesive layer, the stronger the hold. Press firmly together for a few seconds.
