

Strands Firefly Professional – 9" LED high-beam

Strands Firefly Professional LED light with R65-approved strobe light. Providing 16800 lumens and illumination up to 900 meters.

The 9" Strands Firefly with built-in R65-approved strobe light combines an exclusive dark design with immense power. With a dazzling light output of 16800 lumens and wide light, it provides top-notch high beams – reaching up to 450 meters at 1 lux and 100 meter wide to each side.

The Firefly is the perfect upgrade for trucks, SUVs, or any vehicle deserving exceptional high beams. Its large 9" design makes it a striking and eye-catching choice, fitting almost any vehicle.

The Firefly features dual-color position lights that shines in white and orange, illuminating along the frame and across the center, enhancing its sharp and sleek look during the day. The strobe light is an integrated part of the position light and is invisible when not in use.

The Firefly is built to withstand extreme conditions with a solid aluminum frame, polycarbonate lens, and stainless steel base, making it resistant to both extreme cold and heat, from -40 °C to +65 °C.

The pre-mounted DT4 connector makes installation easy, ensuring quick and stable connection. Compatible with both 12V and 24V systems and protected against radio interference (ECE R10).

The Firefly is E-approved for use on public roads.
