Adjustable latch - 52 x 150mm

Also known as latch fittings, toggle latches, toggle fittings, and eccentric latches. Easy to mount. Galvanized steel

Also known as latch hardware, tension latch and cam latch.

The latch is adjustable by 12mm, as it is mounted on a threaded rod. Total length is 138 to 150 mm.

The latch is easily mounted with two M5 bolts or 5 mm screws, while the catch is secured with two M4 bolts or 4 mm screws.

Made of galvanized steel.
