

Lightbase for original MAN sign, IP65

Waterproof lightbase for the original MAN sign. The frosted polycarbonate gives the sign an awsome neon-background.

The waterproof light base for the original MAN sign, that is placed on the hood. The bright LED strip gives the sign an awesome neon background. The LED strip in the sign is potted, and thus IP65

The base can be mounted both back and front, and on the sides, e.g. with the red model on the backside, and white or yellow on the front. The base can also be mounted on the inside of the cabin, where it can also be dimmed using standard LED dimmers.

There is no sign included, so you will have to move the existing one or purchase a separate new sign. The base is made from special opaque white acrylic.

Dual color

This model has 3 wires, a common plus, and a minus for each color. You change colors by moving the minus from one color to the other. You should not have both colors on at the same time.

Connection:

- Brown wire plus
- Green wire minus = Yellow
- White wire minus = White

Mounting

There are thread inserts in the sign, which makes it easy to mount with bolts, or you can use glue to fasten it. Make sure you use stainless steel bolts!

Finally, the original MAN sign is glued on top, with its double adhesive tape.

There is 3 meter cable on both parts of the sign.
