

## LED Marker Lamp with reflex, 12-36V

A nice round marker lamp with LED's in the middle and a reflex for both 12V and 24V. It is fastened with screws. The lamp is ECE-approved.

Nice little round marker lamp with LEDs in the middle and built-in reflex. The lamp is available in yellow, red and white and can be connected to both 12V and 24V. The powerful LEDs provide a clear marking on distance, and the reflector glass makes the car, truck or trailer visable - even when it's turned off.

The lamp is clicked into the bracket, and can be mounted with bolts or screws into the position you want.

The lamp is protected against shock and it is water and dustproof. The lamp is EMC and E-approved.
