

Fiber light source for IVECO S-way cabin

LED light for IVECO S-way truck cabins offering red light. Easy installation, no electrical changes needed.

LED light source for the original fiber-optic light sources in the cabin of IVECO S-way trucks. The original comes with blue light, whereas ours features red light. Other colors are possible on request.

The original light source is cut out and ours is inserted. See images for instructions on how it's done. No electrical alterations required.
