

LED marking lamp with reflector, Square

Fristom light: Compact, energy-efficient LED light for vehicles, E9-approved, EMC-certified

This Fristom light is a compact and energy-efficient LED marker light for trailers, trucks, agricultural, and special vehicles. The light is E9-approved, EMC-certified, and features a durable, impact-resistant polycarbonate housing that ensures long life under demanding conditions. It is fully sealed, operates with 12-36 V DC, and comes with an integrated cable for easy installation. Available in white, yellow, or red light.
