Evolution halogen rotating beacon lightbar

Classic style halogen beacon bar with 70W bulbs. Available in 4 lengths in 12V and 24V, respectively.

Evolution halogen rotating beacon lightbar is for those who want the true classic/old school style without compromising on light.

The lightbar is available in both 12V and 24V versions and in 4 different lengths, allowing you to select the model that best suits your vehicle and needs.

Choose from 4 different lengths in either 12V or 24V:

- 1212mm
- 1372mm
- 1524mm
- 1829mm

All lengths are EMC R10-approved.

Depending on the chosen voltage, the lightbar is equipped with either 12V H1 55W halogen bulbs or 24V H1 70W halogen bulbs.

Construction

The lightbar features 4 separate rotor modules, each with its own halogen bulb and efficient reflectors. This combination guarantees a strong and wide light dispersion with the distinctive rotating effect.

Mounting

Includes feet for roof mounting and brackets for roof-edge mounting, as well as bolts, nuts, and washers for securing on these.

Connection

All models come with a 3m cable and can be connected to 12V or 24V depending on the chosen model:

- Red 1 = Positive + for modules left
- Red 2 = Positive + for modules right
- Black = Negative -
