

Warm White LED Light Bulb 24 x SMD 10-30V, Ba15D - 1142

A warm white Ba15D marine LED bulb with 24 powerful SMD diodes.

A warm white Ba15D marine LED bulb with 24 pcs. 5050 SMD diodes, which together make 280 lumen. The bulb may well replace a regular 20 ~ 30 watt incandescent bulb and the natural color makes the bulb suitable for lighting in the cabin/stateroom/Lantern.

The bulb has a built-in voltage regulator, so it works with 10 ~ 16 Vdc without being damaged by the charging voltage etc.

NOTE: This light bulb is for "marine lamps", where there are + and - at the bottom, so this light bulb does not have 2 levels of intensity.

Legs/dots on the side of the synthesis are sitting right across from each other.

REF. no: 68, 90, 94, 1004, 1076, 1142, 12V

Warm White LED Light Bulb 24 x SMD 10-30V,

Ba15D - 1142

SKU 120324

Consumption: 2.0 Watts

Operation Voltage: 10 - 30 Volts

Size: Ø: 20 mm/L: 51 mm

Color in Kelvin: 3100 K
