LED DRL conversion kit for L,P,G,R,S-series 2016+ LED

Complete conversion kit for L,P,G,R,S-series, to replace the cold white LED DRL with yellow/orange light. Simple to replace.

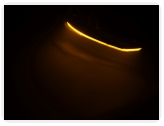

Complete conversion kit for L,P,G,R,S-series with LED headlights from 2016, to replace the cold white LED DRL with a different light color.

They are available in all colors, but typically favorite is the yellow in the right amber / orange indicator color. The dual color model gives you more flexibility, functions and benefits. Other light colors can be made on request.

The bright high power LEDs give you plenty of light. They are mounted on a aluminium plate like the original, which ensures optimal cooling and extended lifetime on the LEDs.
