Rechargeable LED Bicycle Lights

Rechargeable bike lights with 5 LEDs, up to 12-hour battery, Micro-USB charging. Great Side visibility.

Rechargeable bicycle lights for front and rear. The LED lights feature 5 powerful diodes and special front glass that increases side visibility.

They can blink in various modes or shine steadily. The longest battery life is up to 12 hours when using the blinking mode.
With constant light, there is approximately 4 hours per charge.

A charging cable for Micro-USB to USB is included.

Battery capacity: 330mAh
Lumens: 50
Charging port: Micro USB
Light spread: 240 degrees.
