Mi-Light RGB system

RGB controller for 12V and 24V that can be controlled with a wireless remote or can be extended with a smartphone control.

RGB controller for 12V and 24V that can be controlled with a wireless remote, touch panel or extend with a smartphone control. The maximum receiving distance on all remotes is 30 metres.

Zone-functions

With the Mi-Light remote you can control an infinite number of controllers and with the 4 zone-buttons you can split them up in 4 groups. The controllers can also be controlled by 4 different remotes, allowing you to set up a flexible system that can operate in various ways.

Controller

The measurement of the compact RGB controller are only 85 x 45 x 23mm. There are screw-terminals in both ends for the input and the output connections, as well as a DC connector for the input voltage. The controller can output up to 6A on each color channel but with a total of max 12A.

A remote

The touch remote is a very compact device with measurement of 110 x 53 x 22mm that uses 2 x AAA batteries. You can view the illustration to see what the different buttons does.

Touch panel

Nice and elegant touch control-panel for managing your Mi-Light RGB and RGB+White controllers and bulbs. The control panel makes it easy to turn on and off, adjusting color, brightness and effect-mode in 4 different zones.

The panel is tempered glass, which gives the control panel a luxurious look.

The built-in wireless transmitter has a 30 meter range. The model with 2 x AAA battery requires no connection, and can be screwed or taped on. A piece of double-adhesive tape is included.

Wifi Bridge

A wireless bridge that makes it possible to use your smartphone or tablet as a remote for Mi-Light controllers and Mi-Light bulbs, both for dimming-products, RGB products and RGB+White products.

The bridge can control an infinite number of controllers. There is also built-in 4

zones functions that the controllers can be grouped in. The range of the wireless bridge is 30 meters. It is supplied with a micro-usb remote (not included).

We recommend that you try to install the app on your unit before you purchase, so that you can check the compatibility: Download app for Apple-units - Download app for Android-units

A wall holder

If you tired of looking for the Mi-Light remote control, then this wall mount is the solution. The holder is fastened on the wall and then the remote control has its own parking space.

The remote control can be easily loosened from the holder, so it is not a permanent attachment.
