

T8 Philips High Output LED tube

LED tubes that replace the old 18W T8 tubes.

Philips MASTER T8 LED tube makes the conversion from 18W fluorescent lamps to energy-saving LED tubes very easy. A new LED starter/glow is included that you simply swap out with the LED tubes. It will be gained additional power savings by disconnecting the old ballast / coil. If your mixer is fitted with electronic ballast, it will be necessary to disconnect it.
