

LED medium combination lamp I2 - 24V

A wide tail light with a tail, a brake and an indicator lamp for 12V and 24V. A quality lamp with a lifetime warranty. 40cm or 10m cable.

A wide tail light with a tail, a brake and an indicator lamp for 12V and 24V with measurements of only 8 x 15cm. There is also a built-in reflector. It is available with a 40cm cable or a 10 metres cable.

There is a plug on the back for connecting a matching license plate lamp. Look under accessories on this page.

The lamp is completely waterproof in an impact resistant plastic. The electronics are potted, so it can handle both impacts and vibrations. It is designed and tested, so it can resist the hard use on commercial vehicles. Because of this, the manufacturer offers a life time warranty on the lamp.

There are two bolts on the back of the lamp. Three holes are made on the mounting surface, where you tighten the lamp with the included nuts.

The lamp is ECE and EMC approved.
