

Rubber Bracket for Splashproof Stripes

Simple rubber-brackets that fit 8 and 10mm splashproof stripes. They can be used where the glue cannot hold, eg. on raw wood.

Simple rubber-brackets that fit 8 and 10mm splashproof stripes. They can be used where the glue cannot hold, eg. on raw wood.

They are easy to mount using 2 small screws or nails. Not included.

We recommend 5 clips per meter if the stripe is hanging down or it will sink too much.
