

## Mi-Light ZigBee (3.0+2.4G) GU10 RGB+CCT 4W bulb

Powerful GU10 smart-bulb in Mi-Lights CCT system, that can change color and color-temperature. Easy replacement.

Powerful GU10 smart-bulb in Mi-Lights CCT system, that can change color and color-temperature, from cool white to warm white. It is easy to replace a "dumb" bulb with this, as you simply put it in a standard GU10 socket, and connect it with a remote, touch panel or Android and iPhone control.

The bulb has a standard GU10 size, and fits in all standard GU10 sockets. You do not need any special connections to get a more intelligent light.

The bulb can be adjusted from warm to cold-white light, with a color temperature from 2700K to 6500K. The bulb also has red, green and blue light, and all the combinations of these and the white light. You can freely choose between white, pure colors and pastel colors.

This version can be controlled with e.g. Philips Hue, Google home or other smart home control.
