Round LED marker lamp, 12V-24V

Compact round LED marker lamp, that is easily mounted in a 20mm hole. Can be used on cars and trucks, 12V-24V.

Compact round LED marker lamp, that is easily mounted in a 20mm hole. Can be used on cars and trucks.

The lamp is simply mounted by pushing it down in to the hole, where the rubber grommet will lock in place. The wires are then connected to 12V or 24V.

Because of the compact size, it only sticks 5mm out from the mounting-surface, and the groomet protects both the lamp and the surface.

Red, yellow, and white are ECE-approved
Blue and green are NOT ECE-approved

The manufacturer gives a 5 year warranty on the lamp.
