LED desk lamp with magnifying glass 8W

Bright LED lamp that is clamped on your desk. Long arm and built-in magnifying glass

The bright LED desk lamp is clamped on your desk. The long arm gives you great flexibility, in regards to using it both as a regular lamp and as a magnifying lamp. The lamp can be turned 360 degrees, and the head can be tilted 90 degrees in both directions.

The bright light is mounted around the glass, which gives you a uniform light. The magnifying glass is hidden under a lid, that is easily opened. This avoids any dust collecting on the glass while it is not in use.

The magnifying glass is 127mm, and magnifies 1.75.
