Motor coupling Ø22

Simple coupling for DC motors, stepper motors and similar, that can be used for fastening a part to its shaft.

Simple coupling for DC motors, stepper motors and similar, that can be used for fastening a part to its shaft. By screwing two couplings together, it is possible to connect two axles of different diameters, eg. 3mm to 6mm.

The coupling has a diameter of Ø22mm, while the 4xØ3mm holes are placed in Ø16mm.

The coupling is put on the shaft, and then fastened using the included M3 pinol screws. There is also a unbraco tool included for this.
