

Prostroke - LED Rotor beacon, R65

Large rotor beacon with 18 x 3W LEDs. Rotor beacon and strobe function. R65 approved for public road.

Large rotor beacon with 18 x 3W LEDs, placed inside the optical reflector. The strobe can be set to both flash or for making a rotating flash that looks like the classical mechanical rotor beacons.

The beacon is ECE R65 (warning light) and ECE R10 (EMC radio noise) approved, allowing it to be used on public road.

Programs

The program is set using the microswitch placed inside the lens, that can be turned off the base.

- Rotating flash
- Flash
- Quick flash
