Additional position light for Scania LED foglight 2016-2022

Emitters that fits into the original Scania LED foglights. The lamps are opened and the emitters is placed on top of the original. Fits models from 2016-2022.

Emitters with 18 bright LEDs, specifically developed for the original Scania LED foglights. The emitters are available in xenon white, yellow and warm white, lights up the whole reflector of the foglights. The light is not blinding and works as position lights. The clever design allows you to fully keep the function of the foglight.

The emitter is placed on top of the existing emitter for the fog-light. Screws and spacers are included, and are required for mounting.
