

## W3W / W5W 36xSMD Position set 12V

Very bright position set bulbs with 6 SMD, provides strong and broad light.  
Available in xenon-white and yellow.

Very bright position set bulbs with 36 SMD, provide strong and broad light.

Bulbs with high output and built-in voltage regulator, avoiding faults on most cars with Canbus or lamp-control. The LED bulbs may, of course also be used in vehicles without Can-Bus, etc.

Note !!! High heat from the headlights / remote spotlights shortens the life of the LEDs.

The price is for a set of 2 bulbs.
