

Mercedes Actros +2023 LED ceiling lamp conversion kit

Replace the blue and yellow light in the original ceiling lamp, with our emitter, that lights in red and neutral white.

Replace the blue and yellow light in the original ceiling lamp, with our emitter, that standard has red and neutral white light color. You can dim it like the original emitter from the display.

It is also available as RGB, but this is not plug-and-play, as it requires a RGB controller. There is no connector, but 4 x 1 meter wires.

The emitter can be made with two other light colors by request.

Each board has 2 x 5 LEDs (or 5 x RGB LEDs), where the original has 5 + 3.

Mounting

The ceiling lamp is taken down, and the rear shield is removed. The emitters are connected with a plug that is disconnected. The emitters are removed and the new are connected. The lamp is mounted and tested.
