

## Trailer plug - 7 pins

Solid male and female trailer plugs with 7 pins. The wires are easily connected with screw terminals.

Solid male and female trailer plug in alu- or plastic housing for 12V with 7 pins. The wires are easily connected with screw terminals inside the plugs.

The female plug must be mounted on an even surface, so it could be an advantage to purchase a rubber base since it protects the screw terminals and the mounting surface. There is a spring that keeps the lid closed.

Made in Germany. DIN ISO 1724.
