

LED Light Chain with a Warm White Light

230V LED light chain for indoor and outdoor. Four models with 100, 200, 400 and 600 LEDs with a total length up to 27 metres.

LED light chain for indoor and outdoor. Models with 100, 200, 400 emitting a warm white light.

The many 5mm LEDs have special side-emitting lenses that light to the sides and front, which makes them light up as incandescent bulbs.

The light-chain is connected to 230V with the included transformer.

The light-chain is with a dark green wire.
