

27W LED reverse light in Dasteri housing - IO - 30V

A bright 27W LED lamp built in to a standard Dasteri lamp with clear glass (140mm). Intended as extra reverse light, but can be used anywhere.

A bright 27W LED lamp built in to a standard Dasteri lamp with clear glass (140mm). Intended as extra reverse light, but can be used anywhere. The chrome-frame in the pictures is an optional accessory.

Standard reverse-lights do not give enough light in a work environment, and work light rarely look nice, especially on a great looking rear end on a truck or trailer. This lamp is the perfect alternative, as you get the same light from a work light, but in a nice looking lamp, that matches the others.

The chrome from that is on some pictures is an optional accessory.
