

Serie 30 & 40 - Brush-strip

Cover strip with 10mm brushes, that fit series 30 and 40 tracks. Can be used for tightening, clean, guide and fix.

Cover strip with 10mm long Ø 0.2mm brushes, that fit 8mm tracks, such as series 30 and 40 tracks. The brushes can be used for tightening, clean, guide and fix.

A typical use will be to mount the brushes in the opening of a door or lid, to ensure that it is tight.

The covers are also available with 40mm brushes on request.
