

Horpol LED marker light with reversing-sensor - 12V-24V

LED marker-lamps by Horpol with built-in yellow marker-light and reversing-sensor, that flashes faster and faster as you approach an object.

LED marker-lamp by Horpol with built-in yellow marker-light and reversing-sensor, so that you avoid reversing into objects. It flashes faster and faster as you approach an object like a wall, ramp or other vehicles. If you come within 80cm an object it will light up constantly and indicate the end.

The marker-lamps are multivolt (12V-24V), so that you can mount them on your car, van, truck, bus etc.

Available in a short and long version and for the left and the right side. Everything you need for mounting is included. The marker-lamps are E-approved.
